

Out and about in a new Region

2008

Wales West-Mercia Region

In its first official year as a separate region, Wales West Mercia had a few great runs including the Welsh Rally and a classic bike event in deepest South Wales. They also were joined by Peak region for the Lawnmower racing event. This turned out to be a great day of rather unusual and laid back fun. As you can see from the pictures we ride many and various bikes, American, German, Japanese and even British.
